JB YASHVI

Senior Product Designer
+91 8949741873 | jbieyashvi011@gmail.com | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Product designer creating web and mobile experiences across SaaS, e-commerce, logistics and operations. Experienced in multi-role workflows, design systems, developer handoff and AI-assisted prototyping.

EDUCATION

Bachelor of Architecture (B.Arch) **2020 - 2025**
Malaviya National Institute of Technology Jaipur

WORK EXPERIENCE

Senior Product Designer **May 2025 - Present**
Heizen

- Designed web and mobile experiences across multiple client projects in supply chain, logistics, procurement and operations, translating complex workflows into user flows, interfaces and interactive prototypes.
- **TAN90**: Designed a cold-chain logistics platform to bring Excel-based and manual workflows into a shared digital workspace, covering orders, inventory and delivery coordination across four role-based portals through design handoff.
- **CMP Autobot** for Compass Group India: Created the design system for an ingredient-to-article mapping workspace and built its interface using AI tools, supporting human review of suggested matches.
- **NUTRIO**: Designed a healthy-meal ordering and subscription product for gym-goers and mothers planning children's lunches, covering the customer app, delivery partner app, kitchen panel and admin dashboard through design handoff.

Graphic & Product Designer **2020 - 2025**
Freelance

- Designed logos, landing pages, product apps and dashboards; collaborated with **product managers** on product design and **platform redesigns**. Graphic design from 2020; product design from 2023.

Founding Designer (Part-time) **Oct 2023 - Oct 2024**
Sneaco

- Worked as the **founding designer** at an early-stage startup, designing its **website, mobile app** and Instagram creatives.

UI/UX Design Intern **May 2024 - Jul 2024**
Urban Culture

- Designed an admin panel for operational workflows and created social media content aligned with the brand identity.

Design Intern **Oct 2023 - Dec 2023**
Polo

- Supported **product and user research** to understand the product and its users; assisted the **Senior Product Designer** in creating interface screens.
